SELECTED EVENTS AT THE CLAREMONT COLLEGES (CMC EVENTS IN BOLD)

For a **complete list of events**, please go to [CMConnect](#)>**7-College Events** tab. If you plan to attend, please **don't forget to RSVP**. **If we do not have at least 3 students RSVP prior to the event, the event will be cancelled.** RSVP for the events below by clicking on the names of each event. It will ask you to log into CMConnect. Once logged into the system, it will take you directly to the event page where you can RSVP.

13th Annual Pomona College Career & Internship Fair

Friday, February 10

11:30 am-2:30 pm

PO - Smith Campus Center, Edmunds Ballroom

You do not need to RSVP for this event

27 organizations from variety of industries including education, nonprofit, financial, law, and technology will be represented. For list of organizations, click [here](#).

LSAT Seminar by TestMasters

Monday, February 13 @ 6 pm

CMC - Curb Family Conference Room, Heggblade Center

At this seminar, an experienced TestMasters instructor will discuss the LSAT and the key factors

necessary to adequately prepare for the test. Furthermore, several real LSAT questions will be examined, demonstrating some of the underlying intricacies of the exam as well as exposing attendees to several of TestMasters' powerful methods and techniques. **Additionally, all attendees will receive \$100 off the cost of our course – a great perk!**

[Deloitte Consulting – Project Controller Practice](#)

Wednesday, February 15 @ 7 pm

CMC - Founders Room, Bauer Center North

Must RSVP for this event. If we do not have enough RSVPs, this event will be cancelled.

The Project Controller practice is essential to delivering quality client service. Project Controllers (PC) are smart, talented finance professionals responsible for analyzing and reporting on financial results. They are client service professionals who specialize in project and account operations on engagements. PCs provide engagement management knowledge for the entire project team by assisting with the organizational and logistical aspects of projects. Their greatest value, however, is in the understanding and application of engagement business and financial processes both to individual projects and to client accounts. The Project Analyst role is the entry level position for undergraduates. **This event is open to graduating seniors.**

[Reasoning Mind](#)

Thursday, February 16 @ 11:30 am

CMC - Curb Family Conference Room, Heggblade Center

Looking for a job/internship that's challenging, fun, and meaningful? You can help bring a first-rate mathematics education to thousands of students across the nation. Join Alex Randall (HMC '10) at this information session to find out how. All majors welcome.

Reasoning Mind is a non-profit organization that combines online, self-paced learning, a world-class mathematics curriculum, and extensive school support to help all students succeed. Using RM's 2nd-6th grade interactive online program as a tool, teachers individualize lessons for each child. Students work on the computer and develop a love of mathematics while they build critical thinking skills that will lead them to success in the future.

[Southern California Edison](#)

Thursday, February 16 @ 6 pm

CMC - Founders Room, Bauer Center North

Southern California Edison's College Internship Program is designed to provide students an opportunity to compliment their academic knowledge with the real world work environment. This program will provide the opportunity to develop transferable skills, as well as acquaint participants with the mission and goals of the company. SCE firmly believes that learning and development is an important part of career development, therefore, **we have a wealth of opportunities available to fit your specific job interests and career goals.** Here are just some of the majors we have hired into the program and are open to consider additional majors: Accounting, Business Admin/Mgmt, Chemistry, Computer Science, Law, Economics, Environmental Studies, Engineering, Finance, Human Resources, Journalism, Marine Biology, Marketing/Advertising, Mathematics, Physics, and Psychology.
