Southern California Edison (SCE)

Monday, October 3

5 p.m. - 6 p.m.

Smith Campus Center 208, Pomona

The Resource Planning & Analysis group is part of the Market Strategy & Resource Planning department, which provides internal consulting services to executive management at Southern California Edison (SCE). Resource Planning & Analysis evaluates high-profile projects, usually in excess of \$500 million dollars, by performing cost-effectiveness assessments and economic evaluations through the use of the industry's most advanced energy modeling tools. Additionally, Resource Planning & Analysis conducts sophisticated studies covering topics such as Renewable Energy, Greenhouse Gas Reduction, and Nuclear Power legislation that have long-term consequences for California's electrical system. SCE is one of the largest energy providers in the nation with revenues over \$14 billion. SCE is a subsidiary of Edison International, a diversified leader in the energy industry, which has world-wide holdings in the Americas, Europe, and Asia. Come learn more about this opportunity and meet people from SCE at this information session. We hope to see you there!

Cornerstone Research

Monday, October 3

7 p.m. - 8 p.m.

Smith Campus Center 208, Pomona

For more than twenty-five years Cornerstone Research staff has provided high-quality expert testimony and economic and financial analysis to attorneys in all phases of commercial litigation and regulatory proceedings. During that time we have become one of the leading firms consulting to attorneys involved in complex litigation. We work with faculty and industry experts in a distinctive "partnership" that combines the strengths of the business and academic worlds. The faculty, from the nation's leading business schools, economics departments, and law schools, keep us at the forefront of academic research. Our staff consultants contribute expertise in economics, finance, accounting, and marketing research, as well as business acumen, familiarity with the litigation process, and a commitment to produce outstanding results. Our faculty-staff team approach combines theoretical and practical knowledge to develop high-quality analyses tailored to the needs of each case.

Analysis Group

Tuesday, October 4

7 p.m. - 8 p.m.

Smith Campus Center 208, Pomona
