6:00 p.m. - 8:00 p.m.

Founders Room, Claremont McKenna College

Bain & Company is a global business consulting firm with offices in all major cities. We help management make the big decisions: on strategy, operations, mergers & acquisitions, technology and organization.

Bain was founded in 1973 on the principle that consultants must measure their success in terms of their clients' financial results. Companies that outperform the market like to work with us; we are as passionate about their results as they are.

The motto among Bain employees, according to a Chicago consultant, is: "A Bainie never lets another Bainie fail." That is to say, the firm's "extraordinarily supportive culture" is heavily "team-oriented," but "with a relentless focus on delivering value to our clients," a partner explains.
