ACCOUNTING & FINANCE EVENTS AT THE CLAREMONT COLLEGES

For a complete list of events, please go to [CMConnect](#). Once logged into the system, please remember to RSVP by going to the 7-College Events tab.

Intuit

Friday, November 4

1:00-3:00 pm

Pickford Auditorium, Bauer Center South, CMC

The kick-off event will be an Intuit-sponsored Technical Talk. Come and learn more about Intuit and network with fellow Claremont College students as you put together a cross-functional, 5-C “dream team” for the second “IdeaJam” at the Claremont Colleges. We recommend that each four-person team include students from different colleges with strengths in finance, strategy, marketing, and engineering. Intuit regularly hosts internal IdeaJams, which bring together creative people to harness their energy and innovation on a specific issue. In less than two years, Intuit has developed more than 1,500 ideas through IdeaJam, and 22 new ideas are now “released and learning” in market.

About Intuit

It's no secret that Intuit is a great place to start your career. Fortune magazine has consistently rated Intuit as one of the “**100 Best Companies to Work For**” and “**The Most Admired Software Company**.” In a relaxed and fun, yet focused and results-driven environment, our college hires have excelled in their roles at Intuit. With contributions including creating new innovative technologies and processes, building new businesses, and analyzing the market for our current products, college hires have had a tremendous impact at Intuit and have developed the professional skills required for leadership and success.

Application Deadline: **November 7**

Waterman Group - Analyst (Full-Time)

Our client, Vista Equity Partners is a top tier private equity firm focused on investing in dynamic software companies. With \$5.0 billion in committed capital, Vista ranks among the top 1% of all private equity firms in performance. Vista's analyst program offers a unique entry into the private equity industry. Working directly with senior team members, analysts spend their time on transactions and portfolio company consulting. The firm's industry presence and relationships allow it to see a constant flow of potential investments; as an analyst you will get experience evaluating new investments and will learn how to structure complex transactions. The firm has executed a variety of deals, including public company take privates, carve-outs, management buyouts, follow-on acquisitions, divestitures, re-financings, and sell-side exits. Analysts will work with senior team members and portfolio company executives (CEOs, COOs, etc.) to restructure operations, implement best practices, and position companies for future growth.

The analyst program combines the M&A aspects of investment banking and the operational focus of a consulting firm, while approaching both from the perspective of a principal investor.

You will work with world-class investors to identify, structure, and execute new investments in the software market. In parallel, you will work with world-class executives to restructure, operate, and grow our companies into exceptional investments. This is an unrivaled entry-level opportunity in terms of breadth of experience and access to senior team members. Between Vista's success/growth, belief in training and practices of promoting from within, the Vista analyst program not only offers an entry-level position into the private equity industry, but an entry to a career with a top tier private equity firm.
